### EXTENSION SCHOOL COMMITTEE

PAUL S. WAGNER, *Chairman*  
CHRISTIAN R. GINGRICH  
PAUL A. W. WALLACE  
O. EDGAR REYNOLDS

## GENERAL STATEMENT

---

**T**HE courses offered in extension are, for the most part, intended primarily for those engaged in teaching. However, all other qualified persons will be admitted to these classes, since some courses are more or less definitely planned to meet the needs or interests of persons outside the teaching group. All courses will be taught by members of the College Faculty, and will be of college grade. The credits earned by High or Normal School graduates in these courses will be counted by Lebanon Valley College towards its Baccalaureate degrees. A certificate will be issued to persons who are not graduates of a standard High School or its equivalent, provided the work is satisfactorily completed.

### EXPENSES

A fee of \$1.00 will be charged for matriculation and registration. The tuition charge for extension courses will be \$6.00 for each point, a point being a semester hour. For example, the charge for matriculation and registration in courses leading to eight points credit would be \$49.00. This is approximately the regular fee for tuition in the college. Fees for the first term are due and payable on or before October 12 and for the second term on or before February 8. **Remittances should be made to Lebanon Valley College, and may be sent by mail to Agent of Finance Committee.**

# SCHEDULE OF COURSES

---

## CENTRAL HIGH SCHOOL

Harrisburg, Pa.

Date of Organization, September 17, 1929, 7:30 P. M.

---

\* The definite time of the meeting of these courses will be determined at the Organization Meeting.

# DESCRIPTION OF COURSES

## CHEMISTRY

**E-18. General Inorganic Chemistry.** Four hours. Throughout the year. Two demonstration lectures, one recitation and one three-hour laboratory period per week.

A thorough and systematic treatment of the fundamental principles of the science and the application of these principles. The elements, their classifications and compounds are studied in detail. While the course prepares the student for the courses that follow, the needs of the student who will pursue the subject no farther are kept in mind. Consequently a broader field is covered than that offered by the average text-book in general chemistry.

## EDUCATION AND PSYCHOLOGY

**E-32. Social Psychology.** Two hours. First semester. A study of mental growth and action as shown in social relationships.

**E-72. Philosophy of Education.** Two hours. Second semester. This course aims to supply a basis for constructive thinking in the field of education. Various theories in education will be considered.

**E-52. The Psychology of Childhood.** Two hours. First semester. A course dealing with the characteristics of original nature; innate tendencies and instincts; general tendencies, habits and learning of children; cross-section of child life at various ages and the exceptional child.

**E-42. The Psychology of Adolescence.** Two hours. Second semester. A study of the anatomical, physiological and psychological changes characterizing adolescence; the question of motives, personality, emotions, the environment and social relations will be considered.

## ENGLISH

**E-24. A Survey of English Literature.** Two hours. Throughout the year.

*A Survey of English Literature*, from Milton to the present day. Required of all college sophomores. Snyder and Martin: *A Book of English Literature*; Ainsworth: *Old St. Paul's*; Dickens: *Great Expectations*; Thackeray: *Vanity Fair*; Stevenson: *St. Ives*.

**E-522. Modern American Literature, from Walt Whitman to the present.** Two hours. First semester. A study of tendencies and movements in prose, poetry and drama since the Civil War.

**E-132. Modern Drama.** Two hours. Second semester. A survey of the English Drama from 1850 to the present time.

## FRENCH

**E-04. Elementary French.** Two hours. Throughout the year. This course is for those who are beginning French. Its aim is to enable the student to write simple French sentences and to read French of ordinary difficulty. It is part of French 06, which is prerequisite for French 16, which fulfills the modern language requirement for the baccalaureate degree.

## HISTORY

**E-24. Modern European History.** Two hours. Throughout the year. During the first semester emphasis will be placed on the French Revolution and Napoleon. The second semester will be devoted largely to the Russian Revolution and the Fascist regime in Italy.

**E-54. Pennsylvania Biography.** Two hours. Throughout the year. This course covers the entire period of Pennsylvania History including Province and Commonwealth through a study of her famous men and women. The versatility of Pennsylvania talent will appear in a study of those who contributed to the life of Province, Commonwealth and nation as lawyers, financiers, religious leaders, statesmen, physicians, captains of industry, men of letters, artists, soldiers, educators, scientists, inventors, etc.

Lectures, collateral reading and individual reports.

## MATHEMATICS

**E-24. Plane Trigonometry.** Two hours. Throughout the year. Study of the relations between the trigonometric functions; solution of right and oblique triangles; practical applications of trigonometry to the determination of heights and distances. ~~Two semester hours.~~

## POLITICAL SCIENCE

**E-24. World Politics.** Two hours. Throughout the year. A study of the growth and development of International Diplomacy since 1815. During the second half of the course a brief survey will be made covering the relations between United States and Latin America.

## SOCIOLOGY

**E-14.** Two hours. Throughout the year. The course, after treating of the nature of Sociology and the evolution of Sociology, deals with the forces which shape and control society and social organizations. In particular it deals with the origin of man, the rise of contemporary society, population, birth and death rates, movements of

population, race antagonisms, crime, poverty, immortality and mal-adjustments.

Modern social problems will be discussed during the course.

The course is a requirement for those either majoring or minoring in the field of Social Science.

## SPECIAL WORK

The following course will be offered on Friday evening and Saturday morning. The lecture work will be on Friday evening, and the laboratory work will be on Saturday morning in connection with the regular classes in this work.

### BIOLOGY

**38. Zoology.** Four hours. Throughout the year.

The course is intended to acquaint the student with the structure, life history and behavior of representatives of each phylum of animals. In the study of types, structure, function and adaptation are given equal emphasis. The principles of phylogeny and ontogeny are considered.

The laboratory and class work is supplemented by field studies including observations of habits, ecological conditions and the use of keys for identification and classification.

---

Other courses may be offered if there is a sufficient demand.
